

INTERNATIONAL SYMPOSIUM 2016

HEMODYNAMIC, FLUID AND ELECTROLYTE BALANCE IN THE NEWBORN

Friday, October 14th and Saturday, October 15th 2016
RADISSON BLU PLAZA HOTEL - Ljubljana, Slovenia

The aim of the symposium is to boost cross-fertilization of working experience with diagnostics and therapeutic procedures in neonatology within an international group of specialists in neonatology, paediatric cardiology, nephrology, and other professionals involved in health care of newborn infants. Our keynote speaker, Professor Richard A. Polin, the Director of the Division of Neonatology at Morgan Stanley Children's Hospital of New York – Presbyterian, and Professor of Pediatrics at Columbia University College of Physicians and Surgeons, is one of the leading teachers of neonatology students, residents and colleagues all over the world.

– 4413999, **Bank of Slovenia**, Slovenska 35, 1505 Ljubljana, SWIFT: BSLJSI2X.

Please make sure that the symposium title "Neonatal hemodynamics 2016", Name and Surname of the participant are indicated clearly on the bank transfer note.

PROGRAMME

Friday October 14th 2016

9.00 – 9.45 45 min	Registration of participants
9.45 – 10.00 15 min	Introductory remarks Darja Paro-Panjan
10.00 – 11.00 60 min	Controversies in the management of the patent ductus arteriosus Richard A. Polin
11.00 – 11.25 25 min	Principles of developmental cardiovascular physiology and pathophysiology Samo Vesel
11.25 – 11.50 25 min	Using physiology to guide time to cord clamping Lilijana Kornhauser Cerar
11.50 – 12.10 20 min	Break
12.10 – 13.10 60 min	Persistent pulmonary hypertension of the newborn Richard A. Polin
13.10 – 13.35 25 min	Hemodynamic monitoring in newborns: advances and challenges Petja Fister
13.35 – 14.00 25 min	The diagnosis and management of hypotension in the premature infant Irena Štucin Gantar
14.00 – 15.00 60 min	Break
15.00 – 15.25 25 min*	Intra-abdominal hypertension in the newborn: emerging concept Maja Pavčnik
15.25 – 15.50 25 min	Therapeutic approach to neonatal shock: what to do if fluids fail? Mojca Grošelj Grenc
15.50 – 16.15 25 min	Circulation and brain injury Darja Paro-Panjan

Saturday October 15th 2016

9.00 – 10.00 60 min	Fluid and electrolyte controversies in the preterm infant: Physiologic approach to clinical care Richard A. Polin
10.00 – 10.25 25 min	Physiology of the newborn kidney Helena Lenasi
10.25 – 10.50 25 min	Impact of radiological diagnosis in congenital uropathies Damjana Ključevšek
10.50 – 11.10 20 min	Break
11.10 – 11.35 20 min	Estimation of renal function in the newborn Petra Bratina, Tanja Levart Kersnik
11.35 – 12.00 25 min	Acute kidney injury in the newborn Gregor Novljan
12.00 – 12.25 25 min	Fluid and salt balance in newborn infants Gregor Nosan
12.25 – 12.45 20 min	Break
12.45 – 13.45 60 min	A sceptic's view of neonatal medicine: balancing science and art Richard A. Polin
13.45 – 14.10 25 min	Nutrition in newborns with renal dysfunction Jana Lozar Krivec
14.10 – 14.35 25 min	Disorders of calcium-phosphate metabolism in newborn infants Aneta Soltirovska Šalamon
14.35 – 15.00 25 min	Closing remarks Darja Paro-Panjan
