

INTERNATIONAL SYMPOSIUM

NEONATAL HAEMATOLOGY AND HYPERBILIRUBINAEMIA

Friday, October 2nd and Saturday, October 3rd, 2020
GRAND HOTEL UNION, LJUBLJANA, SLOVENIA

The aim of the symposium is to actively exchange the latest findings and experiences in the field of neonatal haematology and hyperbilirubinaemia. We will search for answers on how to handle haemolytic disease of the newborn, neonatal anaemia, thrombocytopenia and other haematological diseases and how to solve the problems related to the metabolism and toxicity of bilirubin. Education is aimed at primary, secondary and tertiary level paediatricians, neonatologists and perinatologists, haematologists, and others who treat newborns and are interested in recent findings in this field. Keynote speaker is going to be professor Enrico Lopriore from Netherlands, who is one of the leading experts in neonatal haematology.

SYMPOSIUM VENUE

Grand Hotel Union (Salon Orhideja), Miklošičeva 1, Ljubljana, Slovenia

ORGANIZERS

Department of Neonatology,
Division of Paediatrics, University
Medical Centre Ljubljana

Društvo za pomoč bolnim
novorojenčkom – Prvi koraki

ORGANIZING COMMITTEE

Darja Paro Panjan, president

VAT: SI79796516, IBAN SI56 0201 4025 8480 229,

SWIFT: LJBASI2X (Nova Ljubljanska banka d.d.).

Please make sure that "Neonatal Haematology and Hyperbilirubinaemia 2020, Name and Surname of the participant" are clearly indicated as the purpose of remittance. Registration fee can be paid at the symposium.

PROGRAMME

Friday October 2nd, 2020

8.30 – 9.00 30 min	Registration of participants
9.00 – 9.05 5 min	Introductory remarks Darja Paro-Panjan
9.05 – 10.00 55 min	Haemolytic disease of the newborn Enrico Lopriore
10.00 – 10.30 30 min	Prevention of RhD Immunisation during pregnancy Irena Bricl
10.30 – 11.00 30 min	Prevalence and antigenic specificity of clinically significant erythrocyte alloantibodies among pregnant women in Slovenia and cases of haemolytic diseases of the fetus and newborn requiring transfusion therapy Janja Mrak
11.00 – 11.30 30 min	Prevention and treatment of haemolytic disease in foetus Tanja Premru-Sršen, Stanko Pušenjok, Gorazd Kavšek
11.30 – 12.00 30 min	Break
12.00 – 12.30 30 min	Foetal / neonatal haematopoiesis and interpreting complete blood counts after birth Jana Lozar Krivec
12.30 – 13.30 60 min	Neonatal thrombocytopenia Enrico Lopriore
13.30 – 14.00 30 min	Neonatal polycythaemia Petja Fister
14.00 – 15.00 60 min	Break
15.00 – 15.30 30 min	Approach to the bleeding newborn Barbara Faganel Kotnik
15.30 – 16.00 30 min	The investigation and management of neonatal haemostasis and thrombosis Tomaž Prelog
16.00 – 16.30 30 min	White blood cell disorders in newborn Vladan Rajic

Saturday October 3rd, 2020

9.00 – 10.00 60 min	Twin-to-twin transfusion syndrome Enrico Lopriore
10.00 – 10.30 30 min	Anaemia – when should we transfuse? Petja Fister, Tomaž Križnar
10.30 – 11.00 30 min	Mesenchymal stem cells for neonatal disorders Primož Poženeč
11.00 – 11.30 30 min	Anaemia of prematurity Enrico Lopriore
11.00 – 11.30 30 min	Anaemia of prematurity – experience from Slovenian tertiary perinatal center Lilijana Kornhauser-Cerar
12.00 – 12.30 30 min	Break
12.30 – 13.00 30 min	Bilirubin metabolism and toxicity Lovro Žiberna
13.00 – 13.30 30 min	Clinical, neurophysiological and imaging spectrum of bilirubin neurotoxicity Aneta Soltirovska Šalamon
13.30 – 14.00 30 min	Neonatal hyperbilirubinaemia – any news in treatment? Gregor Nosan
14.00 – 14.30 30 min	Prolonged jaundice – when to worry? Jernej Brečelj, Manca Velkavrh
14.30	Closing remarks Darja Paro-Panjan
